TANIA DE STRATIS

FRIDAYS DANCE STUDIO

SUB JUNIOR JAZZ/LYRICAL
6-9 YR OLD
4.30-5.30pm
KATE MALCOLM

***DENOTES NEW CLASSES THAT WILL RUN DEPENDING ON STUDENT INTEREST**

HIP HOP: This is a constantly evolving dance style that keeps pace with current music trends and all the latest moves. Hip hop is a great way to maintain fitness & express your own individual style.

DANCE MOVEMENT: Creative dance for our little ones that helps with co-ordination, postural awareness, musicality & rhythm, social skills & is loads of fun.

TRI: Tri classes are very popular as they give students the ability to try three styles of dance in the one class. These include jazz, tap & ballet. This is a great starting point for many of our younger students so when they get older they can then decide what style of dance they are really keen on.

CLASSICAL BALLET: Learn the beautiful & graceful art of ballet. In this class students will develop strength, balance, poise & artistry. This class will also include strengthening to prepare for pointe work.

JAZZ/FUNK: These classes are designed to teach students technical skills whilst offering up beat dance moves to all of today's music.

CONTEMPORARY: Contemporary dance combines different styles of dance including lyrical, classical ballet & modern dance. The body's natural lines & energy are used to create greater fluidity & movement than conventional dance techniques.

JAZZ & TAP: Jazz & Tap classes use creative dance steps to develop rhythm, timing & motor skills. The combination of both styles make these classes challenging & fun.

ACRO DANCE: This class combines dance with acrobatic elements. The dance movements are founded in ballet, jazz & lyrical styles, whereas the acro aspects are referred to as tricks. Students will gain greater strength & flexibility, whilst developing muscle control & balance. Choreography taught will endeavour to blend the two seamlessly.
